

Arkansas Technology Transfer

Arkansas Highway and Transportation Department presents

Guide for Traffic Signs, Markings, and Signals

*Updates to the Manual on Uniform Traffic Control Devices
(4 hrs ROADS Scholar Credit)*

Make sure your agency is up to date on the latest MUTCD requirements! Signs, markings, and signals are primary methods of communicating important messages to drivers. The Manual on Uniform Traffic Control Devices (MUTCD) is the national standard governing all traffic control devices, and it plays a critical role in improving the safety and mobility of road users. It is important for local agencies to be informed regarding proper usage and current issues, and to be aware of updates to the requirements.

Who Should Attend? Decision makers, supervisors, road foremen, street superintendents, engineers, mayors, county judges

What to Bring? Participants should bring a copy of the current MUTCD, or a laptop with the entire MUTCD downloaded into a single folder. Click the link to [DOWNLOAD THE MUTCD](#). A limited number of books will be available to borrow for use during the class.

When: Thursday, January 5, 2017 (12:30 – 4:30pm)

or

Friday, January 6, 2017 (8:30am – 12:30pm)

Where: Little Rock, Arkansas

AHTD Materials Building Training Room

11301 W. Baseline, Little Rock, AR 72209

No fee
